

# Advanced Leather Binding Restoration Workshop

## School for Bookbinding Arts

at Cat Tail Run Hand Bookbinding

### “THE LEATHER REBACK”

**April 6 – 7, 2017    Cost: \$285**

Thursday  
&  
Friday

☞ *The leather reback process restores the spine area of a deteriorating binding. During a reback, new matching leather is brought in under the original binding material. In the class, students will pare the rebacking leather so that it leaves no lump when it is in place in the restored binding. Corner repair, dyeing, toning, and polishing techniques from the **Introduction to Book Restoration** workshop will come into play for this workshop. The photos above show a book prior to and after receiving a leather reback.*

☞ ***Introduction to Book Restoration** or an equivalent is a necessary prerequisite for this course. It is helpful, but not essential, to have taken the **Advanced Cloth Binding Restoration** workshop prior to taking the leather reback*
